

COMPANY: CMRTC HYDERABAD CAMPUS RECRUITMENT DRIVE 2025-26 OVERVIEW

CMR Technical Campus Hyderabad conducts campus recruitment drives every year from November 2025 to March 2026. Major companies visiting campus include Cisco Systems, Siemens EDA, PricewaterhouseCoopers, Salesforce, TCS, and Capgemini. Students from CSE, CSE-AI ML, CSE-DS, ECE, IT and MBA branches are eligible. Minimum GPA requirement across all companies is 7.0 throughout academics with zero active backlogs. Students are expected to have strong fundamentals in Data Structures, Algorithms, OOPs, DBMS, OS and Computer Networks. For top-tier companies like Cisco and Salesforce, domain-specific certifications are mandatory. Students with AI/ML knowledge, hands-on projects in machine learning, deep learning, NLP or computer vision are given preference especially by product-based companies. Having at least 2-3 live projects on GitHub, internship experience, and Kaggle or Trailhead profiles significantly improves chances of selection. Communication skills, aptitude, and problem-solving ability are evaluated in all drives. Students must register at the placement centre before each drive. Multiple offer policy: once a student accepts an offer from one company they cannot appear for the next company unless explicitly permitted by the placement cell.
